V. Conclusion

Section 211(o)(9)(B) of the CAA and 40 CFR 80.1441(e)(2) allow EPA to grant an extension of a small refinery's exemption based on a demonstration by the small refinery of a "disproportionate economic hardship" from compliance with the RFS requirements. Based on our analysis of all of the available information about CSAR, and our consultation with DOE, EPA has concluded that CSAR will experience "disproportionate economic hardship" in complying with its RFS requirements. Therefore, EPA is granting CSARC's request for a temporary extension of CSAR's small refinery RFS hardship exemption for 2015.
